CARRER OBJECTIVE

Detail-oriented software developer with hands-on expertise in Python, SQL, Machine Learning, Data Analytics, and Web Development. Seeking a Python Developer role to deliver innovative, data-driven solutions that align with business objectives and fuel professional growth.

SKILLS

- **Programming Languages:** Python
- **Web Development:** HTML, CSS
- **Database:** SQL
- **Tools :**Github, MS-Excel, Google Sheets
- **Core Concepts:** Data structures and algorithms, MachineLearning,DataBase Management System
- **Frameworks&Libraries :** Django, Pandas, NumPy, scikit-learn, Matplotlib
- **Soft Skills:** Communication skills , Time Management , Team Collaboration, Analytical Thinking

INTERNSHIPS

- **Data Analytics intern at One Yes Infotech Solutions Pvt Ltd. through Thozil platform:** JUN-AUG 2025
Conducted data preprocessing, EDA, SQL analysis, and reporting using Python and Excel.
- **Full Stack Development using Python by RETECH Private Limited solutions:** JUN-JUL 2024
Developed full-stack web applications using Python, Django, SQL, HTML, and CSS.

PROJECTS

- **AI-Driven Multi-Disease Prediction System for Vector-Borne Infections:** Developed an ensemble ML model using Random Forest, XGBoost, and Gradient Boosting with feature engineering and hyperparameter tuning, improving disease prediction accuracy.
- **Django-based library management system:** Developed a secure role-based library management system using Django and SQL, enabling efficient book management, user authentication, and real-time operations.
- **Development of 3D models using AR/VR Technologies:** Developed interactive 3D models using Augmented Reality (AR) and Virtual Reality (VR) technologies, improving visualization and immersive user experiences.

EDUCATION DETAILS

Bachelor of Technology (AI&DS)	2022-2026
Prathyusha Engineering College, Tiruvallur	Secured:8.5 CGPA
Intermediate (MPC)	2020-2022
Sri Nalanda Junior College , Rajampet	Secured:88.8%
SSC(10th)	2019-2020
Narayana e-Techno School, Rajampet	Secured:98%

CERTIFICATIONS

- Python Full Stack Developer-FITA Academy
- Cloud Computing-NPTEL
- Deep Learning-NPTEL
- Python Foundation-Infosys| Spring Board
